

# APS Home Performance with ENERGY STAR®

**Application must be submitted within six months of Home Energy Checkup date.**

**INCOMPLETE APPLICATIONS CANNOT BE ACCEPTED.**

**DID YOU REMEMBER TO:**

- Complete all sections at right?
- Attach a copy of the paid Home Energy Checkup invoice from your contractor?

**Please complete the application with attachments and your participating contractor will process the paperwork through the approved program software.**

**For program questions please call (602) 532-2991.**

Program participants must live in APS service territory. Eligible housing types include single family detached, townhomes, attached homes of four or fewer units and manufactured homes.

Home Energy Checkups performed before March 1, 2010 will not qualify for this program.

This application form is effective as of July 1, 2015 and it supersedes and replaces all prior versions.

This program is funded by APS customers and is approved by the Arizona Corporation Commission.

## TERMS & CONDITIONS

I certify that I am an APS customer, at the address of the services provided for which I am applying for a rebate. I also agree that the Contracting Company that performed the services in my home associated with this rebate application is solely responsible for the performance of their work. It is understood and agreed that the Contracting Company is not an agent, servant, or employee of APS and is retained by me as an independent contractor. I indemnify and hold harmless APS, its officers, directors, employees, agents, representatives, affiliates, successors and assigns harmless from any liability cost, or expense, including reasonable attorneys' fees and legal costs, arising out of or resulting from the contractor's performance.

Contracting Company performing Home Energy Checkup must be on the Participating Contractors list for the Arizona Home Performance with ENERGY STAR program. APS customers must have completed an APS Home Energy Checkup in order to be eligible for Home Performance with ENERGY STAR rebates. Customers are only eligible for one Home Energy Checkup rebate per address, every five years.

Customer has five years from completion of the Home Energy Checkup to perform recommendations in order to be eligible for Home Performance with ENERGY STAR rebates. Completion of an audit does not guarantee payment of future rebate funds.

\$99 Proof of payment must be included for contractor to be eligible for Home Energy Checkup rebate.

APS reserves the right to change, modify or discontinue Home Performance rebates at any time. Rebates will be paid in accordance with program guidelines in effective on the date that APS receives a customer's application.

Payment of rebate funds is contingent upon continued approval of the program by the Arizona Corporation Commission ("ACC") and funding availability. If this program is discontinued by the ACC, APS shall have no further obligation to pay any rebates.

## UTILITY BILL RELEASE

- I hereby consent to Arizona Public Service Company (“APS”) releasing to \_\_\_\_\_ (“Contractor”) my APS customer account number and related energy usage history information, and for Contractor to access that information as needed for the purpose of conducting a Home Energy Checkup at the service address set forth below. I also hereby release and hold harmless APS and its affiliated companies from any and all claims, losses, damages and liability that may arise from or be related to the performance of the Home Energy Checkup, and any other services or goods that may be provided by Contractor. I understand that Contractor is not an agent or representative of APS and APS is not responsible for Contractor’s services or goods.
- I do **not** approve the use of my utility bill information.

## HOME ENERGY EFFICIENCY FINANCING ONLY

In order to assist you in the application process that you initiated for Home Energy Financing with National Bank of Arizona (“NBAZ”), APS must provide certain information to NBAZ that is specific to you and/or your Home Performance Project (the “Project”). This information will include: your name and address; your total Project costs; your projected rebate amount; whether or not you are eligible to apply for financing based on the status of your APS utility account (considering length of service and payment history); your contractor’s name; and a Project scope approval. By signing below, you authorize APS to provide such information to NBAZ.

The undersigned hereby authorizes APS to release the information specified above to NBAZ. The undersigned agrees to hold APS harmless from any liability for any loss, compromise, or unauthorized use or disclosure of my APS customer information that arises out of or results from the release by APS of such information to NBAZ. I represent that I am authorized to consent to the release and use of my APS account information as described above.

### REBATE TERMS & CONDITIONS

- Customer has five year from the time of the initial Home Energy Checkup to perform recommendations.
- Customer has six months to submit rebate application after work has been completed.
- Program participants must live in APS service territory. Eligible housing types include single family detached, townhomes, attached homes of four or fewer units and manufactured homes.
- No work done before March 1, 2010 will qualify for a rebate under this program. This program will end when funds expire.
- This program does not apply to new construction.
- Please allow 6-8 weeks for rebate processing.
- Rebate form must include invoice and proof of payment.
- In order to qualify for APS Home Performance with ENERGY STAR rebates the customer must have a completed Home Energy Checkup performed by a company on the APS Participating Contractor's list for the Arizona Home Performance with ENERGY STAR program.

### DUCT SEAL TERMS & CONDITIONS

- Rebate is calculated at 75% of the cost of sealing each system.
- Maximum rebate is \$400 per system.
- Up to five systems per house can qualify for the duct seal rebate.
- When a carbon monoxide detector is not present, it is recommended that one be installed when performing duct sealing when combustible appliances are present.
- Must meet all BPI Building Analyst Standards.

### AIR SEAL TERMS & CONDITIONS

- Rebate is calculated at 75% of the cost of air sealing, up to \$500 per household combined with insulation improvements.
- When a carbon monoxide detector is not present, it is recommended that one be installed when performing air sealing when combustible appliances are present.
- Must meet all BPI Building Analyst Standards.
- The home's existing leakage, before air sealing, must be greater than or equal to 16 ACH50.

### INSULATION TERMS & CONDITIONS

- Rebate is calculated at 75% of the cost of installing insulation, up to \$250 per household.
- Insulation rebate applies to attics only.
- Rebate is based off of the improvement in the R-value of the insulation.
- Insulation improvements must be made in combination with air sealing, unless documentation can prove that air sealing is unnecessary.
- Existing insulation less than R-19 in value can qualify for a rebate up to R-30 with qualifying improvements.
- If existing insulation is greater than R-19, but deemed to be performing under R-19, customer may qualify for rebate to improve insulation up to R-30. Evidence of underperformance (e.g. photos, thermal images) and an explanation must accompany this rebate form.
- Existing insulation with effective R-value of R-19 or greater will not qualify for a rebate.
- For qualifying attics, rebate will be paid on insulation levels up to R-30. Rebate will not cover insulation beyond R-30.
- Must meet all BPI Building Analyst Standards.
