

APS Home Performance with ENERGY STAR®

REBATE TERMS & CONDITIONS

- In order to qualify for APS Home Performance with ENERGY STAR rebates the customer must have a completed Home Energy Checkup performed by a company on the APS Participating Contractor's list for the Arizona Home Performance with ENERGY STAR program.
- Customer has five years from the time of the initial Home Energy Checkup to perform recommendations.
- Customer has six months to submit rebate application after work has been completed. No work done before March 1, 2010 will qualify for a rebate under this program.
- Program participants must live in APS service territory. Eligible housing types include single family detached, townhomes, attached homes of four or fewer units and manufactured homes.
- This program does not apply to new construction.
- Please allow 6-8 weeks for rebate processing.
- Rebate form must include invoice and proof of payment.
- APS reserves the right to change, modify or discontinue Home Performance rebates at any time. Rebates will be paid in accordance with program guidelines in effective on the date that APS receives a customer's application.
- Payment of rebate funds is contingent upon continued approval of the program by the Arizona Corporation Commission ("ACC") and funding availability. If this program is discontinued by the ACC, APS shall have no further obligation to pay any rebates.

CUSTOMER SIGNATURE

I certify that I am an APS customer, at the address of the services provided for which I am applying for a rebate. I also agree that the Contracting Company that performed the services in my home associated with this rebate application is solely responsible for the performance of their work. It is understood and agreed that the Contracting Company is not an agent, servant or employee of APS and is retained by me as an independent contractor. I indemnify and hold harmless APS, its officers, directors, employees, agents, representatives, affiliates, successors and assigns harmless from any liability, cost, or expense, including reasonable attorneys' fees and legal costs, arising out of or resulting from the contractor's performance.

HOME ENERGY EFFICIENCY FINANCING ONLY

I, _____ (name of customer), hereby certify that _____ ("Contracting Company") has completed all services and/or work required to be performed in connection with this rebate application (the "Work") to my satisfaction, and that no Work to be performed or materials to be provided remain outstanding. I hereby authorize National Bank of Arizona ("NBAZ") to remit to the Contracting Company, as payment for the Work, any amount(s) owed to Contracting Company after application of the rebate contemplated by this application, subject to the terms of the loan documents that I executed with NBAZ. Specifically, I authorize NBAZ to remit to Contracting Company the Total Amount to be Financed, as illustrated below, to the extent of any loan proceeds remaining under such loan documents. I understand that if the remaining loan proceeds are not sufficient to pay for the Work in full, I remain obligated to pay any balance due to the Contracting Company. I understand and agree that any amounts remitted to the Contracting Company by NBAZ pursuant to this authorization constitute loan advances and/or disbursements under the terms of my loan documents and that I am obligated to repay such amounts in accordance to the terms of such loan documents.

$$\left(\frac{\text{Final Project Cost}}{\text{Final Project Cost}} \right) - \left(\frac{\text{Total Rebate Amount}}{\text{Total Rebate Amount}} \right) = \frac{\text{Total Amount to be Financed}}{\text{Total Amount to be Financed}}$$

DUCT SEAL TERMS & CONDITIONS

- Rebate is calculated at 75% of the cost of sealing each system.
- Maximum rebate is \$400 per system.
- Up to five systems per house can qualify for the duct seal rebate.
- When a carbon monoxide detector is not present, it is recommended that one be installed when performing duct sealing when combustible appliances are present.
- Must meet all BPI Building Analyst Standards.

Refer to page 1 for rebate terms & conditions.

If combustible appliances are present:

- CO detector was installed or customer already had CO detector installed.
- Customer declines to have CO detector installed.

Duct Seal Rebate Calculator

Duct System 1: $(0.75) \times \frac{\text{Total Project Cost of Seal}}{\text{Total Project Cost of Seal}} = \frac{\text{System 1 Rebate (up to \$400)}}{\text{System 1 Rebate (up to \$400)}}$

Duct System 2: $(0.75) \times \frac{\text{Total Project Cost of Seal}}{\text{Total Project Cost of Seal}} = \frac{\text{System 1 Rebate (up to \$400)}}{\text{System 1 Rebate (up to \$400)}}$

Duct System 3: $(0.75) \times \frac{\text{Total Project Cost of Seal}}{\text{Total Project Cost of Seal}} = \frac{\text{System 1 Rebate (up to \$400)}}{\text{System 1 Rebate (up to \$400)}}$

Duct System 4: $(0.75) \times \frac{\text{Total Project Cost of Seal}}{\text{Total Project Cost of Seal}} = \frac{\text{System 1 Rebate (up to \$400)}}{\text{System 1 Rebate (up to \$400)}}$

Duct System 5: $(0.75) \times \frac{\text{Total Project Cost of Seal}}{\text{Total Project Cost of Seal}} = \frac{\text{System 1 Rebate (up to \$400)}}{\text{System 1 Rebate (up to \$400)}}$

Total Rebate = _____ (up to five systems)

AIR SEAL TERMS & CONDITIONS

- Rebate is calculated at 75% of the cost of air sealing, up to \$500 per household combined with insulation improvements.
- When a carbon monoxide detector is not present, it is recommended that one be installed when performing air sealing when combustible appliances are present.
- Must meet all BPI Building Analyst Standards.
- The home's existing leakage, before air sealing, must be greater than or equal to 16 ACH50.

Refer to page 1 for rebate terms & conditions.

INSULATION TERMS & CONDITIONS

- Rebate is calculated at 75% of the cost of installing insulation, up to \$250 per household.
- Insulation rebate applies to attics only.
- Rebate is based off of the improvement in the R-value of the insulation.
- Insulation improvements must be made in combination with air sealing, unless documentation can prove that air sealing is unnecessary.
- Existing insulation less than R-19 in value can qualify for a rebate up to R-30 with qualifying improvements.
- If existing insulation is greater than R-19, but deemed to be performing under R-19, customer may qualify for rebate to improve insulation up to R-30. Evidence of underperformance (e.g. photos, thermal images) and an explanation must accompany this rebate form.
- Existing insulation with effective R-value of R-19 or greater will not qualify for a rebate.
- For qualifying attics, rebate will be paid on insulation levels up to R-30. Rebate will not cover insulation beyond R-30.
- Must meet all BPI Building Analyst Standards.

Refer to page 1 for rebate terms & conditions.
